---

### Single Classes

#### Vaccines: A Victim of their Own Success?

The latest trends in social media, global brand building, consumer insights, data and analytics, and diversity.

Wednesday, January 15, 1:15 to 2:45
Chris Olugbenga Ayeni, Professor, Dept of Communication, ECSU

**The U.S. Approach to Food: Causes and Consequences**

Why do we eat the way we do and what is it doing to our bodies and environment?

Wednesday, January 29, 1:15 to 2:45
Hedley Freake, Professor of Nutrition Sciences, UConn

**What's That Smell?**

Development of a Cannabis Horticulture and Molecular Biology Research and Teaching Program at UConn

Lack of federal grant support and industry’s proclivity to keep research private has led to a paucity of U.S. peer-reviewed research about cannabis.

UConn aims to become a national leader in cannabis horticulture and education, building a program that might attract grant support and generate research into the biology of this commercially important plant.

Wednesday, February 5, 1:15 to 2:45
Gerald Berkowitz, Professor, Plant Science and Landscape Architecture, UConn

**Dinosaurs in Connecticut**

New interpretations of rocks at Dinosaur State Park in Rocky Hill, calling into question some long-held ideas about the dinosaurs and their environment.

Thursday, January 30, 1:15 to 2:45
Peter Drzewiecki, Professor, Environmental Earth Science, ECSU

**Investigating How Alzheimer’s Disease Might Progress**

Exploring hallmarks of Alzheimer’s disease progression, and the possibility that dysfunctional immune cells in the brain might be a contributing factor.

Tuesday, February 11, 1:15 to 2:45
Kurt Lucin, Associate Professor of Biology, ECSU

**Today’s White Nationalism and Yesterday’s Fascism**

This talk explores “white nationalism” in both Europe and the U.S., comparing and contrasting it with the fascisms of the 1930s and 1940s and showing that the contemporary American right is more in dialogue with its counterparts in Europe than it has been in generations.

Wednesday, February 12, 1:15 to 2:45
Christopher Vials, Associate Professor of English and Director of American Studies, UConn

**Reparations for U.S. Slavery**

This talk discusses German reparations for the world wars and covers the history of slavery reparations proposals from the U.S. founding to the current day, suggesting how to determine lost African-American inheritances. Also addressed are the South’s Jim Crow laws and federal discrimination during the New Deal to the post-war era.

Wednesday, February 19, 1:15 to 2:45
Thomas Craemer, Associate Professor, Public Policy, UConn

---

### Advertising is More than “Mad Men”

The history of immunizations and the diseases they prevent, their impact on public health locally and globally, and how they organized against Great Britain in the years leading up to the American Revolution, between 1765 and 1775.

Tuesday, February 4, 1:15 to 2:45
Dayne Rugh, Director of Education, Slater Memorial Museum, Norwich, CT

**What do we eat the way we do and what is it doing to our bodies and environment?**

Wednesday, January 29, 1:15 to 2:45
Hedley Freake, Professor of Nutrition Sciences, UConn

**Fall Prevention 101**

Staying on your feet can help you maintain your independence. Take a simple step to learn the essentials of fall prevention, including six things that increase your risk of falling, and how to reduce your risk of falling, and how to get up from a fall.

Tuesday, February 18, 1:15 to 2:45
Linda Colangelo, Education and Communications Coordinator, Northeast District Dept of Health

---

### Craniosacral Therapy:

What It Is and How It Works to Heal our Body’s System

An overview of how our nervous system ensures flow within our body and how stress can cause the system to become stuck, impeding flow and communication and leading to dysfunction or disease. Specific details about CST’s clinical applications and methodology, what a typical session is like, and what to expect during treatments.

Wednesday, February 26, 1:15 to 2:45
Vera Killian, Physical Therapist, Pelvic Physical Therapy, Mansfield, CT

**An Introduction to Genealogy**

This talk covers relationship basics and documentation tools, U.S. Census and other genealogy records, and techniques to break through brick walls.

Thursday, February 27, 1:15 to 2:45
Mary Dickerson, Dickerson Development Consulting

### Location, Location, Location: Where You Live Can Affect Your Health

Do you live near a major road, a power plant, an industrial site, or in a dense neighborhood or a suburb? Are you close to a supermarket with lots of fresh fruits and vegetables? Such neighborhood factors can impact your health and longevity.

Tuesday, March 3, 1:15 to 2:45
Debarchana Ghosh, Associate Professor, Health Geography, UConn

### Brexit

Where it came from, how it happened, and what’s next.

Wednesday, March 4, 1:15 to 2:45
Stephen Dyson, Professor, Political Science, UConn
